

# Our Kindness Kangaroo Literacy Project

**We are encouraging kids to create book reviews of their favourite books!**

The importance of creating a review is to recommend a good book to a friend (to help them see the importance of stories) AND encourage the author to keep writing stories we love! These reviews can be as simple as a drawing of their favourite part of the book (with details filled in by an adult). Or, for older kids, perhaps they would like to write a little bit about the book along with a drawing.

Not only will these reviews help share the love of reading (through our website and social media accounts) but 12 of these reviews will be selected to fill our 2025 fundraising calendar. This calendar will feature a book each month, along with a child's review. All profits from the sale of these calendars will benefit a wonderful organization that we partner with - The Children's Reading Room.
